

You Can Save The Children of *Haiti!*

“CHANGE FOR HAITI”

Today one child will die every 4 1/2 minutes which means that today, 320 children will never know what it is to:

- ◇ Go to School*
- ◇ Ride a bicycle*
- ◇ Have a best friend*
- ◇ Tie their own shoes*

Because they will die before they are five years of age.

Your Pocket Change can help make change!

- ◇ Two cents can de-worm one child.*
- ◇ .50 can supply a child with vitamins to ensure proper nutrients for proper growth.*
- ◇ .57 cents can feed one child for one day*
- ◇ 1.25 can vaccinate a child from life threatening diseases*

Give your change and make a change today!
